

$$\alpha = \frac{m_1}{m_2} = ?$$

$$v_2 = ?$$

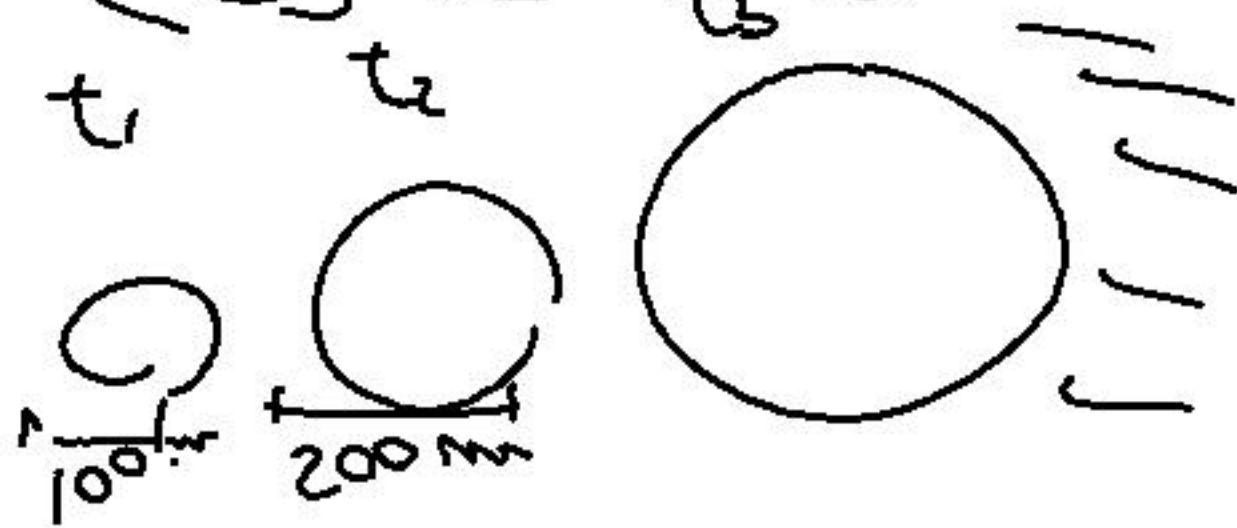

Se  $m_2 \gg m_1$

$$\alpha \ll 1$$

- Energia meccanica

- Analisi dimensionale

$$\left[ \begin{array}{c} \bar{E} \\ t_1 \\ t_2 \end{array} \right] = \left[ \begin{array}{c} \text{m l}^2 \text{t}^{-2} \\ t_b \end{array} \right]$$

$t \quad \tau$

$\bar{E}$

$\tau(t, \bar{E}, d) =$

$$\tau = t^x \cdot \bar{E}^y \cdot d^z$$
